You are cordially invited to join Dr. Trinh-Pham for a special day dedicated to **Invisalign®/Clear Correct** clear braces.

This **One-Day-Only Special Event** will run from 1 pm until 6:30 pm on **Wednesday, Jan 27, 2010.**

Invisalign®/Clear Correct is a method of straightening teeth using a series of clear, invisible, removable aligners. Both systems combine the doctor's clinical treatment plan with proprietary 3-D, computer-generated model of your teeth showing exactly how your aligners will move your teeth into a more desirable position.

Invisalign®/Clear Correct are both a great treatment solution for both adults and teenagers with fully erupted adult teeth that want to resolve crowding, unwanted spaces, or correct some misalignment in their smile. It's also a great option for people who once had orthodontic treatment and have since relapsed.
